

**GAS AREA - APPLICATION FOR WORKING PERMANENTLY
IN DENMARK AS AN INDIVIDUAL**

APPLICATION

If you wish to work permanently in Denmark, you must send an application to the Danish Safety Technology Authority.

IN WHICH FIELD DO YOU WISH TO WORK AS A TECHNICALLY RESPONSIBLE PERSON

Tick off where appropriate:

Technically responsible person for initial adjustment and service on gas-fired burner systems above 135 kW

☐

The approval entitles you to work as a technically responsible person in a company, which has been approved to carry out initial adjustment and service on gas-fired burner systems above 135 kW.

Technically responsible person for initial adjustment and service on gas-powered motor systems

☐

The approval entitles you to work as a technically responsible person in a company, which has been approved to carry out initial adjustment and service on gas-powered motor systems.

Technically responsible person for initial adjustment and service on gas-powered turbines

☐

The approval entitles you to work as a technically responsible person in a company, which has been approved to carry out initial adjustment and service on gas-powered turbines.

Technically responsible person for initial adjustment and service on installations with process equipment

☐

The approval entitles you to work as a technically responsible person in a company, which has been approved to carry out initial adjustment and service on installations with process equipment.

It appears from the rules that you must be affiliated with the approved company for a minimum of 30 hours per week within normal opening hours to be able to work as a technically responsible person.

As a technically responsible person your tasks are i.e. to ensure that:

- the company's tasks that require approval are manned correctly
- the employees are instructed sufficiently and
- execution of the work is sufficiently supervised

Moreover, the technically responsible person shall ensure that the work is carried out in accordance with applicable Danish rules of law, Executive Orders and technical regulations and in accordance with the company quality management system.

FULL NAME AND ADDRESS OF THE INDIVIDUAL (PRIVATE AND BUSINESS ADDRESS)

Name of the individual:		Date of birth:
Private address of the individual:		
Name of the company:		
Address of the company:		
Postal code/City:		Country:
Telephone No.:	Mobile No.:	
Fax No.:	E-mail:	

REQUIRED DOCUMENTATION TO BE PROVIDED WITH THE APPLICATION

- Documentation of nationality (enclose copy of passport, driver's license, etc.).
- Copies of your certificates of professional competence or of the evidence of formal qualifications giving access to pursue the profession as a technically responsible person within the electrical-, gas-, water and drainage- or sewer installations area, or other relevant attestations of professional competence and evidence of formal qualifications.
- Documentation of any professional experience as a technically responsible person within the electrical-, gas-, water and drainage- or sewer installations area, or equivalent profession for at least one year on a full-time basis or equivalent duration on a part-time basis during the ten years prior to the notification in one of the countries mentioned in § 1, section 1 where the profession as a technically responsible person or the education and training leading to the profession is not regulated. However, please also see § 15, section 1 which implements article 17 in directive of the European Parliament and of the council on the recognition of professional qualifications.
- Documentation certifying that you are not prevented from practicing your profession as a technically responsible person within the electrical-, gas-, water and drainage- or sewer installations area, or equivalent profession in your home country or the country from which you come, even temporarily. Your profession must appear from the certificate.
- Documentation certifying that you have not, in your position or otherwise in your profession, displayed such behavior that there is reason to suppose that the profession will not be exercised in a safe manner.
- Documentation certifying that you are of legal age, are not under guardianship and manage your own affairs.

Signature:

Date:

The application and documentation shall be sent by e-mail or letter to:
Danish Safety Technology Authority, Nørregade 63, DK-6700 Esbjerg, Denmark.

E-mail: sik@sik.dk

Guidelines for working permanently in Denmark as an individual

Your notification will be processed in accordance with Directive 2005/36/EC on the recognition of professional qualifications.

This Directive has been implemented in Denmark by

- Executive Order No 1201 of 17 October 2007 on the pursuit of professions in the area of gas, plumbing and sanitation on the basis of foreign professional qualifications.

CHECKING OF QUALIFICATIONS

The Danish Safety Technology Authority is entitled to check your professional qualifications before you pursue your profession in Denmark for the first time.

In some cases, the Danish Safety Technology Authority may require you to complete an adaptation period of three years or to pass an aptitude test.

CASE PROCESSING TIMES

The Danish Safety Technology Authority has to give you a reasoned response to your application within three months after the Danish Safety Technology Authority has received your application.

This deadline may be extended by one month if difficulties arise that may lead to a delay.

APPROVAL FOR THE COMPANY

If you wish to pursue your profession in Denmark, the company to which you are affiliated must also be approved. It is not legal for you as an individual to work in Denmark if the company for which you work is not approved in the same field. This applies both if you are self-employed and if you are employed in another company.

The requirement for approval for the company applies regardless of whether you wish to pursue the profession on a temporary and occasional basis or whether you wish to work permanently in Denmark.

FEE

A fee must be paid through the website <https://shop.sik.dk/da/node/15> of the Danish Safety Technology Authority, in conjunction with applying for approval.

Prepared by The Danish Safety Technology Authority - Issue date 8th May 2017
