

## **Recognition of certified pyrotechnicians on the basis of foreign professional qualifications**

The regulations for the area are set out in Executive Order No 1425 of 16 December 2009 on the approval and pursuit of the profession of certified pyrotechnician on the basis of foreign professional qualifications.

When pursuing the profession of certified pyrotechnician in Denmark, the following criteria must be satisfied before a certified pyrotechnician certificate can be issued on the basis of foreign professional qualifications:

### **Temporary and occasional pursuit of professional activity as a certified pyrotechnician in Denmark**

The applicant must notify the Danish Safety Technology Authority in writing before pursuing the profession of certified pyrotechnician. The notification must contain:

1. Information on any insurance agreements or other forms of collective protection associated with the practitioner's professional liability.
2. Evidence that the applicant is a citizen of an EU or EEA country or a country with which the EU has entered into an agreement giving access to pursue regulated professions.
3. Attestation or other evidence that the applicant is established in a EU or EEA country or a country with which the EU has entered into an agreement giving access to pursue regulated professions.
4. Evidence of professional qualifications.
5. Evidence that the applicant has not been found guilty of a criminal offence which constitutes a danger of them misusing their profession.

### **Establishing a business as a certified pyrotechnician in Denmark**

The applicant must submit an application for establishing a business as a pyrotechnician in Denmark to the Danish Ministry of Education and to CIRIUS.

The application must contain:

- 1 Proof of the applicant's nationality.
- 2 Copies of attestations of professional competence or of the evidence of formal qualifications giving access to pursue the profession of certified pyrotechnician or equivalent professions.
- 3 Documentation of the applicant's professional experience as a certified pyrotechnician.
- 4 Documentation proving that the applicant is not prohibited from pursuing their profession in the applicant's country of origin at the time of application.
- 5 Evidence that the applicant has not been found guilty of a criminal offence which constitutes a danger of them misusing their profession.
- 6 Documentation proving the applicant is of legal age.

Please note that approval/recognition of qualifications does not entail the right to use professional fireworks. For this right you must be authorised separately for each individual event. You must apply for this authorisation from the municipal council for the municipality in which the fireworks are to be used.
